(Commerce, Economics, Chemistry and Mathematics) and Ph.D (Commerce, Economics, Chemistry and Computer Science)

About the Department

The department of Biochemistry was established in the year 1995 with the state of art laboratory facilities. The department organizes workshops and seminars to facilitate its interaction with students and faculties from other institutions.

Major Activities of the Department

- State Level Workshop on Computational Biology, September 2010
- Seminar on Impact of Diabetes mellitus on human heart- clinical & metabolic facets – Role of Biochemists, January, 2011
- One Day Seminar on “Career Opportunities in Life Sciences” December 2011.

- Certificate course on “Basics of computing” October 2011
- Certificate course on “ Computational Biochemistry” – December 2011
- Department Association Event “Cellutions” is organized every year.

Theme of the conference

The aim of the conference is to familiarize the student community towards current research and development in the field of biological sciences.

Molecular medicine is a new scientific discipline which combines contemporary medical studies with the field of biochemistry. It is a broad field where physical, chemical, biological and medical techniques are used to describe molecular structures and mechanisms, identify fundamental molecular and genetic errors of disease and to develop molecular interventions to correct them. Molecular medicine scales the height of modern biomedical science & helps to solve the mysteries of newer diseases. The focus of the conference is to bring out the research findings in the field of Molecular medicine which includes herbal medicine, ayurvedic medicine, and siddha medicine. Research findings from various sects are expected to throw light on the developments in biomedicine.

Call for Paper / Abstracts

Original research papers pertaining to the title of the conference are invited from faculty, research scholars and students from

Academic and R&D institutions. Authors of papers selected for oral presentation in the Conference will be intimated. Selected Abstracts will be published in the Conference proceedings in The American Journal of Bio-pharmacology Biochemistry and Life Sciences [AJBBL] [Online ISSN: pending]. Abstract in MS word (Times New Roman, 12pts, single line spacing not exceeding 300 words in A4 should be sent electronically to dgvc.bc.conference@gmail.com on or before 25th Jan 2012.
